SUMMARY

Like to be persistence for success. Enjoy working in groups. Intend to be communicative once I get to know all of my companions. Prefer to pass the knowledge with my co-workers.

My goal is to get as much knowledge as I can to become expert with my field of work to achieve success in my life.

I Seek a half time or a full time job to get experience and to catch up with the labor field requirements

EXPERIENCE

Intern Developer & Researcher 06/2021 - 11/2021
Nile University Giza-Egypt

Worked in a team in software research & development, supervised by a number of professors and school deans.

Activities & Research:

- Front-End Developer.
- Conducted industrial research to validate our project's vision and the overview.

PROJECTS

NutriDripp 10/2021 - 07/2022
Nile University

NutriDripp is an "IOT BASED INTELLIGENT PLANT IRRIGATION & NUTRITION MICRO MANAGEMENT SYSTEM"

- NutriDripp is my graduation project.
- Have designed the website of this project using React.
- Performed full research of the project incorporating similar projects.
- Backed up the project with strong references.

Mini game using OpenGL 10/2021 - 01/2022
